

Paperless Precision: Your Digital Time & Attendance System

CLOUD INTEGRATION

Seamlessly sync attendance data with your existing payroll software. Eliminate manual data entry errors and ensure your team gets paid correctly, every time, from anywhere in the world.

BIOMETRIC SECURITY

Stop "buddy punching" and time theft before it starts. Our system utilizes advanced facial recognition to ensure the right person is clocking in at the right time.

REAL-TIME ANALYTICS

Gain instant visibility into labor costs. Monitor overtime, track absenteeism, and generate detailed reports instantly to make smarter workforce management decisions on the fly.

- **Eliminate Time Tracking Errors:** Automated calculations reduce human error by up to 100%, saving your accounting team hours of reconciliation work.
- **Geofencing & GPS Tracking:** Ensure field employees are exactly where they need to be when they clock in using our mobile app integration.
- **Compliance Made Easy:** Automatically adhere to labor laws and break-time regulations with built-in alerts and audit trails.
- **Employee Self-Service:** Empower staff to view schedules, request time off, and check accruals directly from their own devices.

Streamline Your Workforce Management

Manual time sheets are a drain on productivity. Between illegible handwriting, lost forms, and the hours spent manually inputting data into payroll systems, businesses lose significant revenue to administrative inefficiency every year. The Intellitech Timesheet Digital System replaces outdated paper trails with a sleek, automated interface.

Whether your team is in the office or out in the field, our platform captures time data with precision. We remove the guesswork from attendance, allowing management to focus on growth rather than chasing down timesheets. By digitizing this process, you create a transparent environment where employees feel accountable and HR teams feel supported.

Security Meets Simplicity

Moving to a digital system isn't just about saving paper; it's about securing your data. Our encrypted cloud storage ensures that sensitive employee records are protected against loss or unauthorized access, far surpassing the security of a filing cabinet. Implementation is effortless. Our system is designed for rapid deployment with minimal training required. From the moment you switch on Intellitech, you start saving money on labor costs. Don't let administrative friction slow your business down. Upgrade to the precision of paperless time tracking and experience the future of workforce management today.

TECHNICAL SUPPORT

We don't just sell software; we support your business. Our local support team is available to assist with hardware configuration, software queries, and troubleshooting to ensure your operations never miss a beat.

ZERO DOWNTIME

Built on robust cloud infrastructure, our system guarantees 99.9% uptime. In the event of an internet outage, our offline mode securely stores data locally and auto-syncs the moment connectivity is restored.

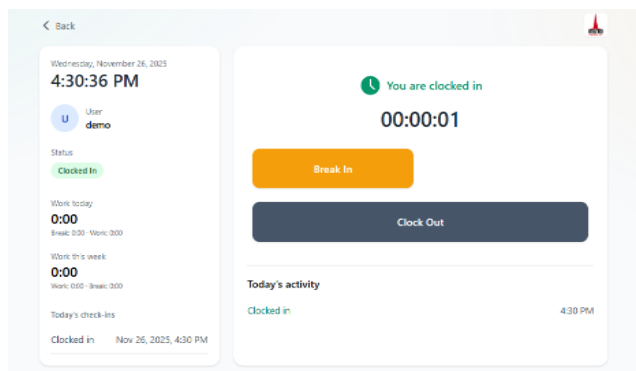

TURNKEY SOLUTIONS

From the initial survey and hardware installation to software configuration and staff training, Intellitech manages the entire deployment process. We get you running with no disruption to your daily workflow.

Service Features and Benefits

Experience an intuitive interface designed for the modern workforce. Our dashboard offers a clear, single-screen view for clocking in, managing breaks, and reviewing daily activity. There is no steep learning curve; employees can log their time securely in seconds.

Managers gain immediate oversight with live status updates, seeing exactly who is on the clock, who is on break, and who is absent—all in real-time. This transparency reduces administrative friction and empowers your team to focus on productivity rather than paperwork.

Compatible with all modern web browsers. Interface adjusts automatically for desktop, tablet, and mobile viewing. Data synchronization speeds may vary based on local network stability.

System Requirements

- Operating Systems: Fully compatible with Windows 10/11 and macOS for desktop administration. Mobile applications support Android 10+ and iOS 14+.
- Web Browsers: Optimized for the latest versions of Google Chrome, Mozilla Firefox, Microsoft Edge, and Safari.
- Network Connectivity: A stable internet connection (minimum 5Mbps upload/download) is recommended for real-time cloud synchronization.
- Kiosk Interface: Supports any capacitive touch display or tablet device (Android or iOS).
- Database: No local server required. All data is hosted on our secure, encrypted cloud servers, reducing your on-site IT maintenance costs.
